The Political Science major provides students with a general education in the liberal arts and an introduction to the complexities of the political process. The major offers students the opportunity to develop an advanced understanding of American politics, politics of other nations, and political theory. The major is designed to offer students maximum flexibility when selecting classes. Courses transferred from your study abroad experience may possibly be used either in the advanced courses and related area of the major.

In addition to General Educations and Bachelor of Arts Degree requirements, you will need to meet the following department requirements with a grade of “C” or better to graduate with a major in the Political Science Bachelor of Arts.

Courses transferred from your study abroad experience may possibly be used as support in your major. If you have any questions, please feel free to contact the undergraduate advisers in the department.
